Hi Eugenia,

Yes, Brian Mikucki will be there on the 18th at 8:00AM. If you need an additional day, that should not be a problem.

Is the Givaudan Site sampling still scheduled for this week?

Thanks
Enrique

Enrique,

As previously discussed, we are on track to sample at 80 Lister Avenue on Tuesday August 18, 2015. We expect the sampling to be done in one day, but we may need to come back the day after to complete anything that wasn't finished. Can you confirm that someone will be present to open the gate at 8 am? I will be out that week, so I won't be able to join you, but my colleague Elizabeth Butler will be there as well as Steve Blaze from EPA/ERT and the Lockheed Martin contractors.

Let us know if you have any additional questions or if we need to discuss anything else. Thanks,

Eugenia
